

INTERDISCIPLINARY HONORS (IDH)

IDH 1023 - ACE Elements of Honors (1 Credits)

ACE Students will be introduced to the strategies of being a successful scholar at FGCU and beyond. During the course, they will spend time learning about student success strategies to help ease student transition to University expectations. The curriculum is designed to help students set personal standards of scholastic expectations and to help them learn how to unlock doors to experiences they may not know exist. Through the exploration of the Elements of Honors, students will discover formulas for success, which may be applied to many situations in their lives.

Attribute(s): HONS - Honors Section

IDH 1024 - Elements of Honors (1 Credits)

This is an interdisciplinary Honors course designed to introduce students to the Elements of Honors and the opportunities for academic and personal growth each of the Elements represent.

Attribute(s): HONS - Honors Section

IDH 1930 - Honors Readings (1-3 Credits)

Each semester, we will discuss 3 books. Groups comprised of no more than 4 students per faculty will meet at a mutually acceptable time. The three books will have a common theme and the theme will lend itself to an interdisciplinary approach. Ideally, the books will be a mix of fiction and nonfiction. In these small groups, the students will have the chance to freely express their thoughts. They will also have the opportunity to develop a close association with dedicated faculty members, which is one of the foundations of our Honors Program. At the end of the semester, we hope to get the students and faculty together with one of the authors of the books for a discussion of the ideas and themes discussed over the semester. May be repeated for credit up to four times when topics vary.

Attribute(s): HONS - Honors Section
