

P.E. ACTIVITIES/GEN-LAND (PEL)

PEL 3120 - PGA Prep 1 (3 Credits)

PGA PGM level one materials will be covered. Includes introduction to business principles of golf management, business planning and golf car fleet operations.

Prerequisite(s): HFT 1382

PEL 3123 - History of Golf (3 Credits)

A survey of the traditions and history of the game of golf. The course explores the game's origins and traces its evolution from a simple stick-and-ball game to today's high-tech global phenomenon. From within the context of 19th and 20th century European and American history, students will learn about the game's greatest players, its famous courses, and its most memorable tournaments and competitions. The course also focuses on the effects of culture, society, and technology on the evolution of golf equipment, swing theory, golf course design and maintenance, private and public golf facilities, golf apparel, and targeted advertising.

PEL 3125 - PGA Prep 2 (3 Credits)

PGA PREP 2, a continuation of PGA Prep 1, study and discussion of PGA Level 1 work experience activities. Includes components of human learning, feedback, and the teaching process as it applies to introductory golf instruction. Course addresses ball flight principles, golf club performance variables and their affect on student performance.
