

AI AND MACHINE LEARNING (CERTIFICATE)

The graduate certificate program in AI and Machine Learning is a 4 course (12 credits) program to provide a head start for students with an undergraduate business or non-business degree, in the field of AI and Machine Learning.

Program Admission Requirements

- Earned undergraduate degree from a regionally accredited institution of higher learning documented by official transcripts or equivalent foreign institution, as documented by official transcripts.
- A cumulative grade point average of 3.0 in the undergraduate program.
- Submission of a completed application for the Graduate Certificate in AI and Machine Learning to the Lutgert College of Business, prior to the established deadline.
- International students must demonstrate English language proficiency in accordance with University regulation.

Program Progression and Additional Graduation Requirements

- Students must satisfactorily complete the minimum number of credits specified by the certificate program in specific courses.
- A minimum overall GPA of 3.0 in coursework applied to the certificate is required.
